

Since 1840

Unlock the Future of Your Home
Smart, Secure, Connected.

Yale Smart Home Catalogue

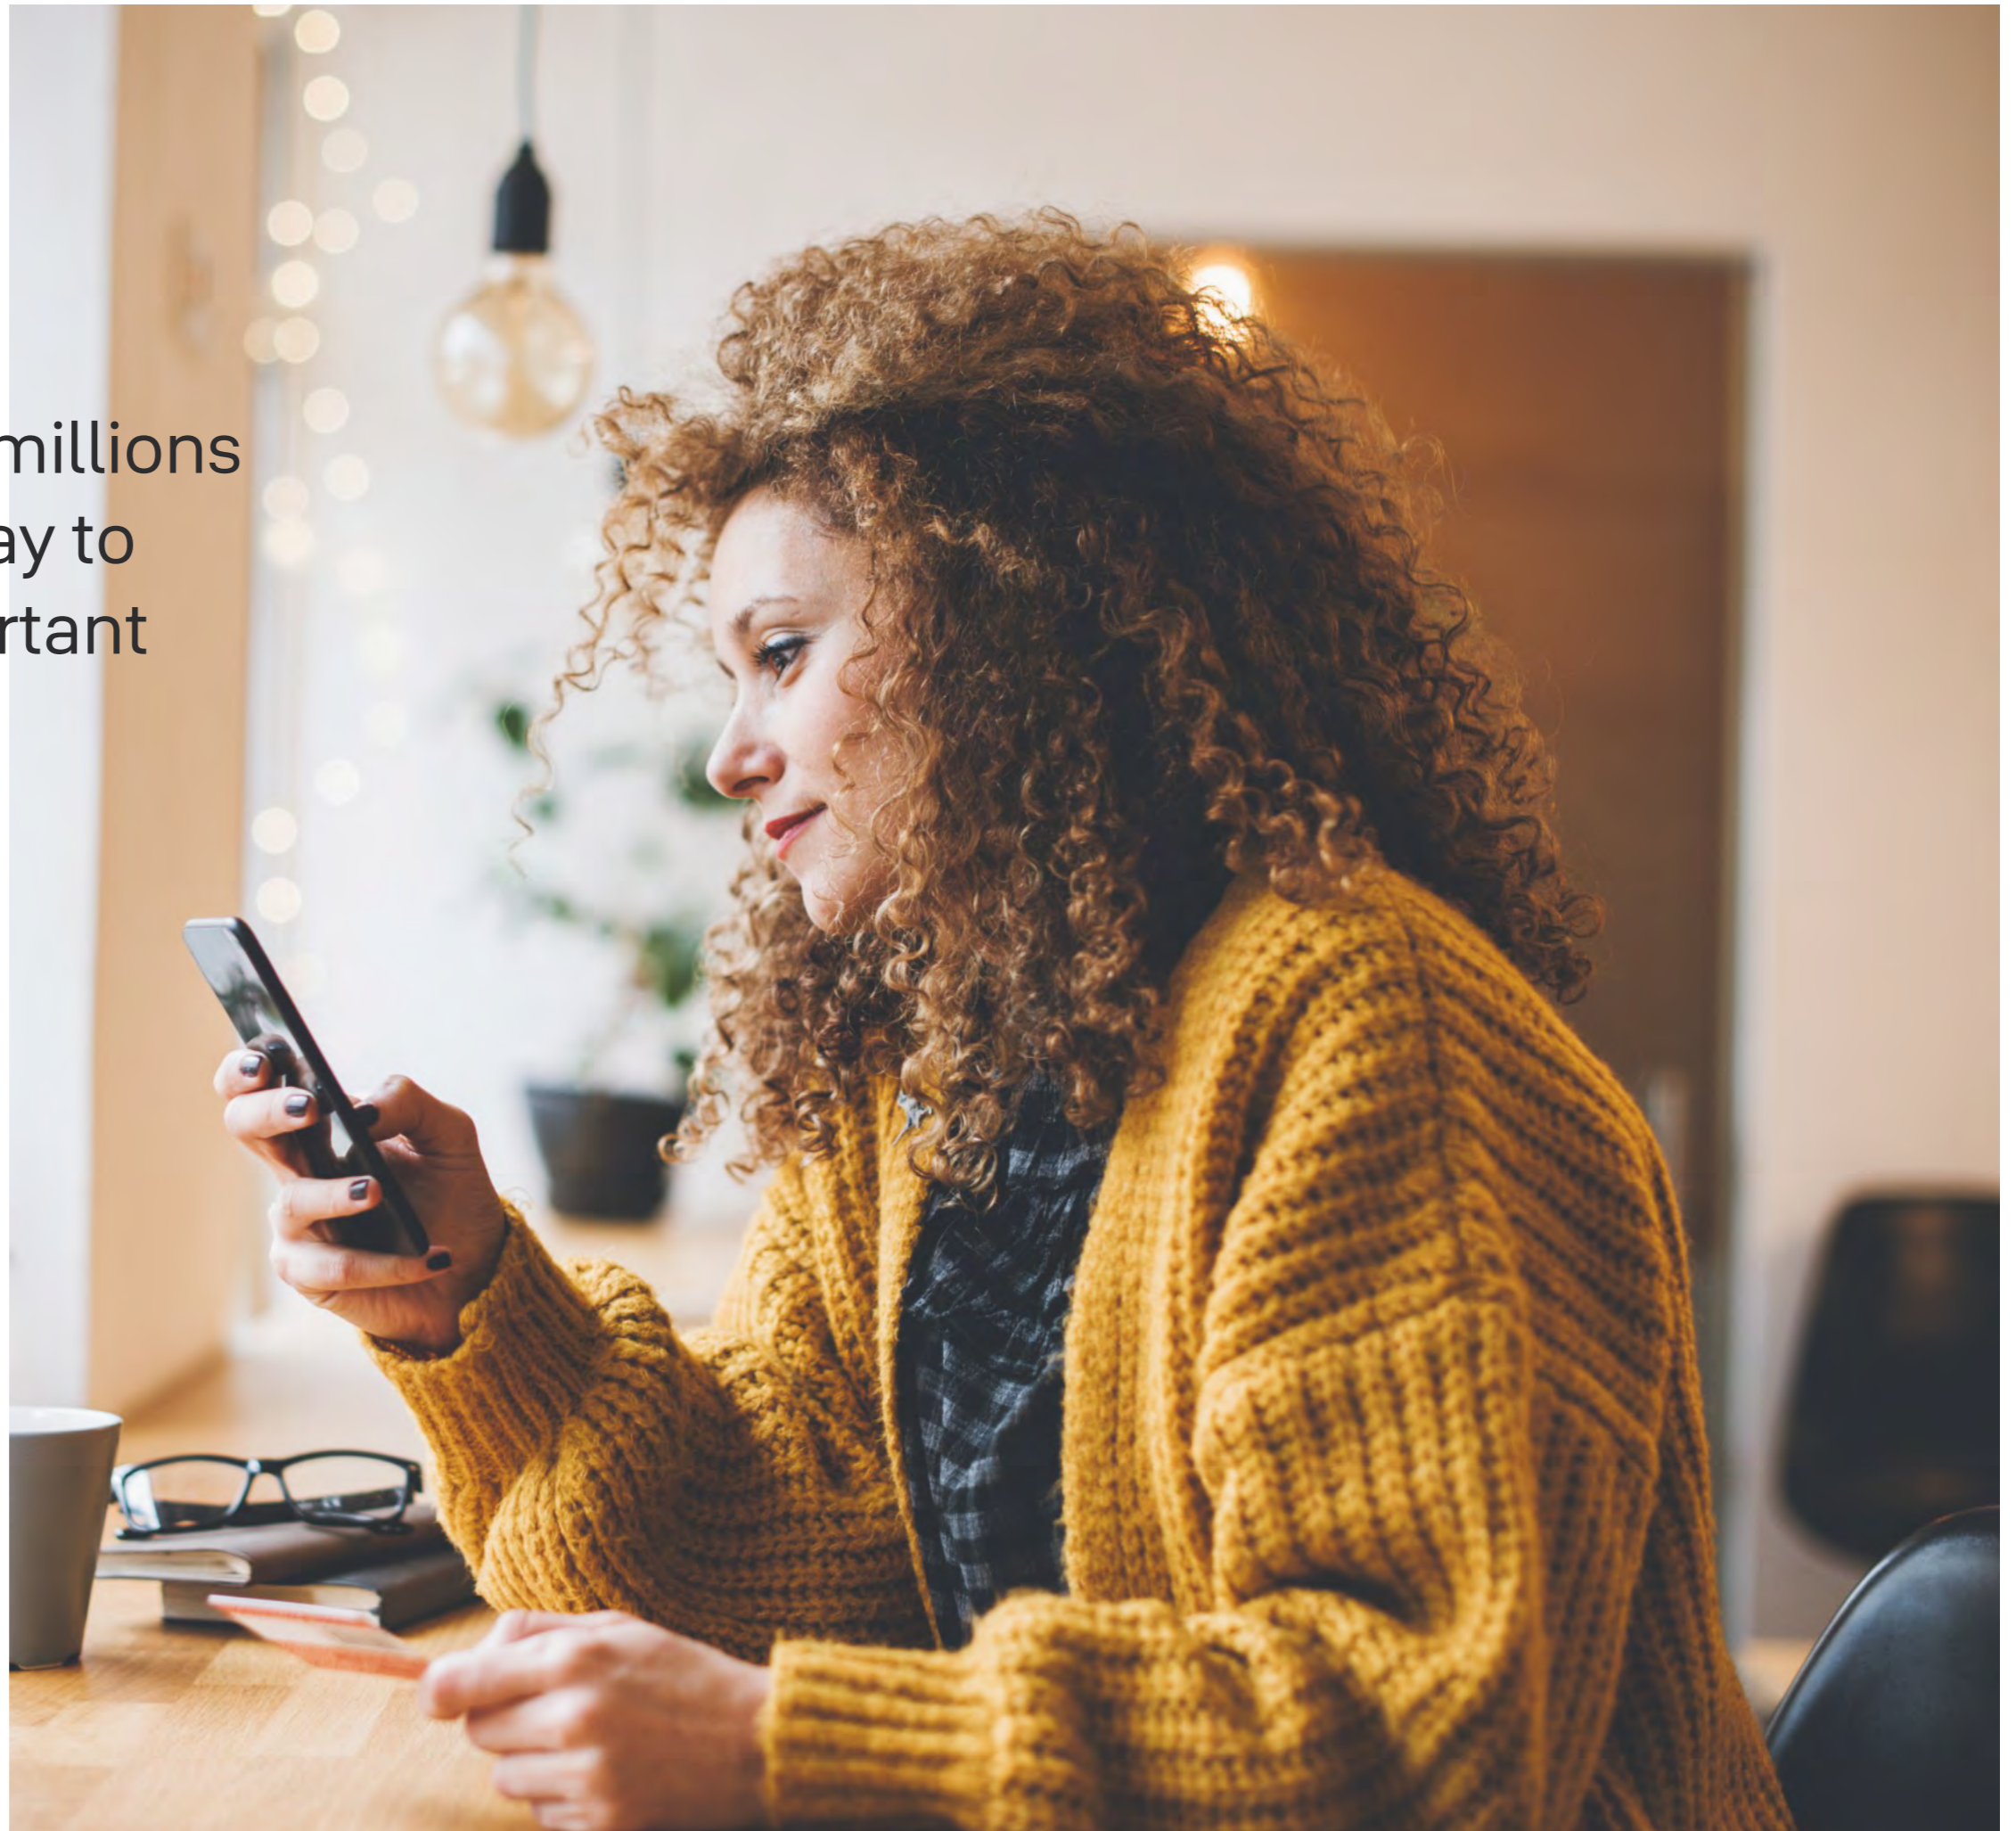

Yale is trusted by millions of people every day to keep what's important to them safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes. Because we always make every effort to push the boundaries in a changing world.

We were there for your grandparents (and probably theirs) and we'll be there for your children.

Today, and every day to come.

The Yale Home Ecosystem

For a seamless home security experience.

The Yale Home app enables you to connect and control all your Yale smart security devices Yale Smart Locks, Yale Smart Alarm, Yale Smart Storage solutions and Video Door bell from a single app.

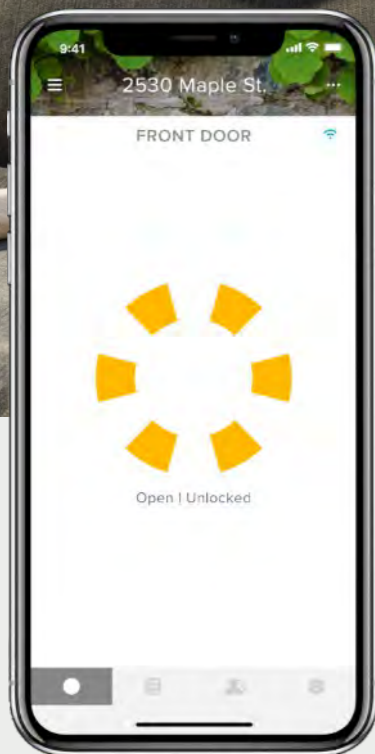

Yale Home

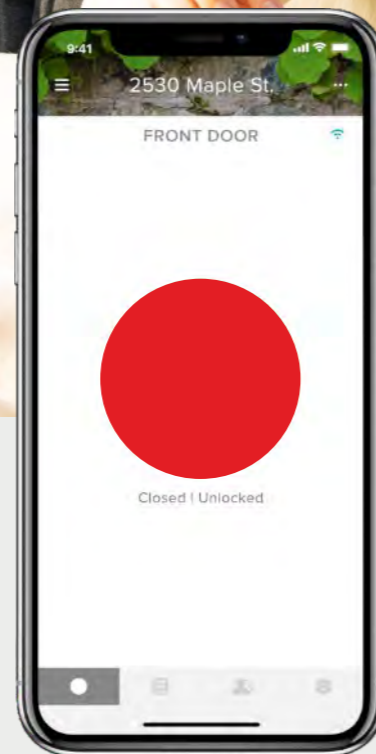

*Coming soon

The Yale Home app functionalities

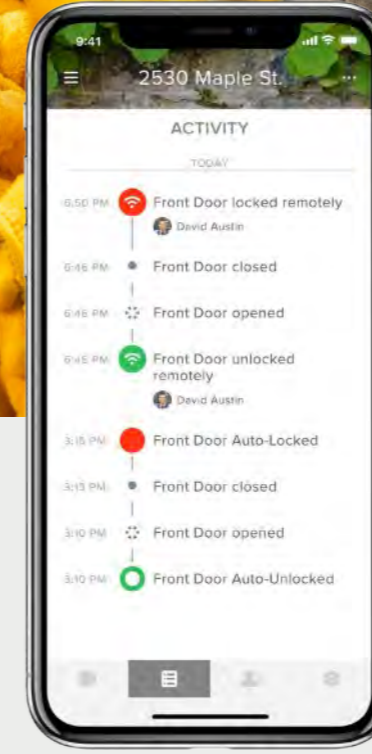

App control

Lock and unlock your door from your app, anywhere in the world.

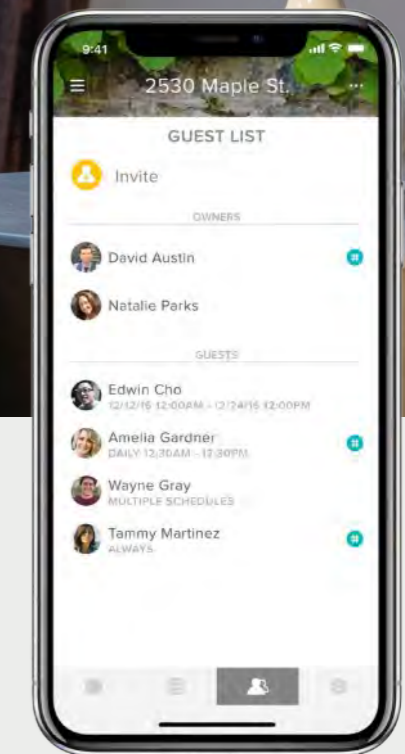

DoorSense™ technology

The lock will check the status of the door and tell you if your door is securely closed and locked.

Activity monitoring

See who comes and when with the Activity Feed. Check who unlocked the door and if or when it was actually opened. Set-up alerts to notify when specific people arrive home.

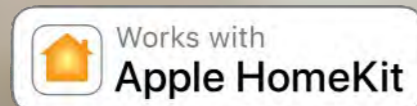

Guest access

Grant unlimited virtual keys valid for a few weeks, a few hours, or a few minutes. Never worry about lost or stolen keys again.

Smart together

Connect your Smart Lock with leading smart home systems, voice assistants and holiday rental platforms for effortless lock control and access management.

YDM7220 Biosecure™

Keep your loved ones safe and healthy by ensuring all touch points around the house is cleaned and disinfected properly and frequently. Thanks to the BioSecure™ anti-bacterial solution, our lever handle is coated with BioSecure™, which is formulated using silver ion to inhibit bacteria growth and reduce the risk of secondary infections, especially in elderly people and the young ones.

You can choose from different types of door access control for your home, from fingerprint scan to personalised PIN code, RFID key tag or simply via the Yale Home mobile app. Yale redefines peace of mind with the BioSecure™ technology that addresses hygiene concerns while you enjoy a convenient and secure entrance solution for you and your family

YDM4115A

YDM4115A has great features, but what really makes it special is the stylish and sleek design. The body is either brown or silver in colour, with perfect finishing touches. The smart lock's technology hides the fingerprint sensor underneath the display screen. It has a hidden mechanical keyhole, which enables access with a spare mechanical key if there is an emergency situation. Virtual password entry can effectively prevent password leakage, and get alerted through instant phone and sound alarms when there have been unauthorised attempts or access. It's all in the details.

YDM3115A

It's natural for a home to have multiple guests coming together under the same roof. Hence, the YDM3115A smart lock lets you enter home without needing to remember PIN codes simply because you can use RFID key tags for easy door access. You can even issue single-use temporary passwords for your visitors and set schedules to let them in while you're away. YDM3115A is a 3-in-1 door access control platform with strong security features, offering PIN code and RFID key tag as the two main authentication methods.

Smart RIM Lock

Yale Smart RIM Locks are good for adding on to an existing door mechanism. If you prefer to use existing handle or want to keep an existing deadbolt lock, then Yale Smart RIM locks are definitely your best choice for giving your home an extra security.

YDR50GA

At Yale, we offer many smart locks for all types of doors and gates for optimum security of your home. As with any smart locks, one of their impressive features includes automatic locking. If you are someone who may check the door several times in a row to make sure it's really locked before leaving the house, consider investing in YDR50GA which comes with six unlock methods Biometric Access, PIN code, RFID key, remote control, mechanical key and phone. Plus, the slim design is an easy fit that suits a wide range of metal gate sizes and types. With confidence in the smart lock, you can leave your worries behind and get on with your daily routine.

Smart Deadbolt Lock

Yale Smart Deadbolt locks are good for adding on to an existing door mechanism. If you prefer to use your existing handle or want to keep an existing deadbolt lock, Yale Smart Deadbolt lock will be your ideal choice that gives you extra security.

YDD 724A

As a digital deadbolt lock, YDD724A is suitable for use on wooden door. Installing a deadbolt on your front door will help enhance your home's security significantly. This lock style resists forcible entry because it is not easily battered down. Therefore, YDD724A makes a door very resistant to entry that is without the correct authentication.

Smart Glass Door Lock

Yale Smart Glass door lock is your perfect choice for any glass door with single leaf door or double leaf door. It is designed for minimum modification of your glass door that provides you a good protection for your home.

YDG413A

YDG413A in simply elegant mirrored finish provides keyless access for glass doors and has access solutions like PIN code and fingerprint. Convenience wise, it's much easier to enter a passcode or use your fingerprint to enter the glass door, rather than using a key card. Plus, with a smart lock, you can lock the door remotely – especially when you're dealing with sensitive data in your office room and think you should prevent theft and other forms of trespassing.

* Yale Home kit is required for Yale Home functionalities (sold separately).

Protection for the home, peace for the mind

**For your home. For the things you love.
For you.**

Yale offers you trusted everyday convenience and security for your entire home, through smart security products and easy to use Yale Home app.

We're here to help you protect the things that matter most.

Full control from the palm of your hand

Turn your smartphone or Apple Watch into your key. The intuitive Yale Home app for your Android or iOS device lets you manage the access of your home remotely.* You can share access with the people you trust, view activity, and receive notifications.

*Yale Connect Wi-Fi Bridge & Yale Home Module are required.

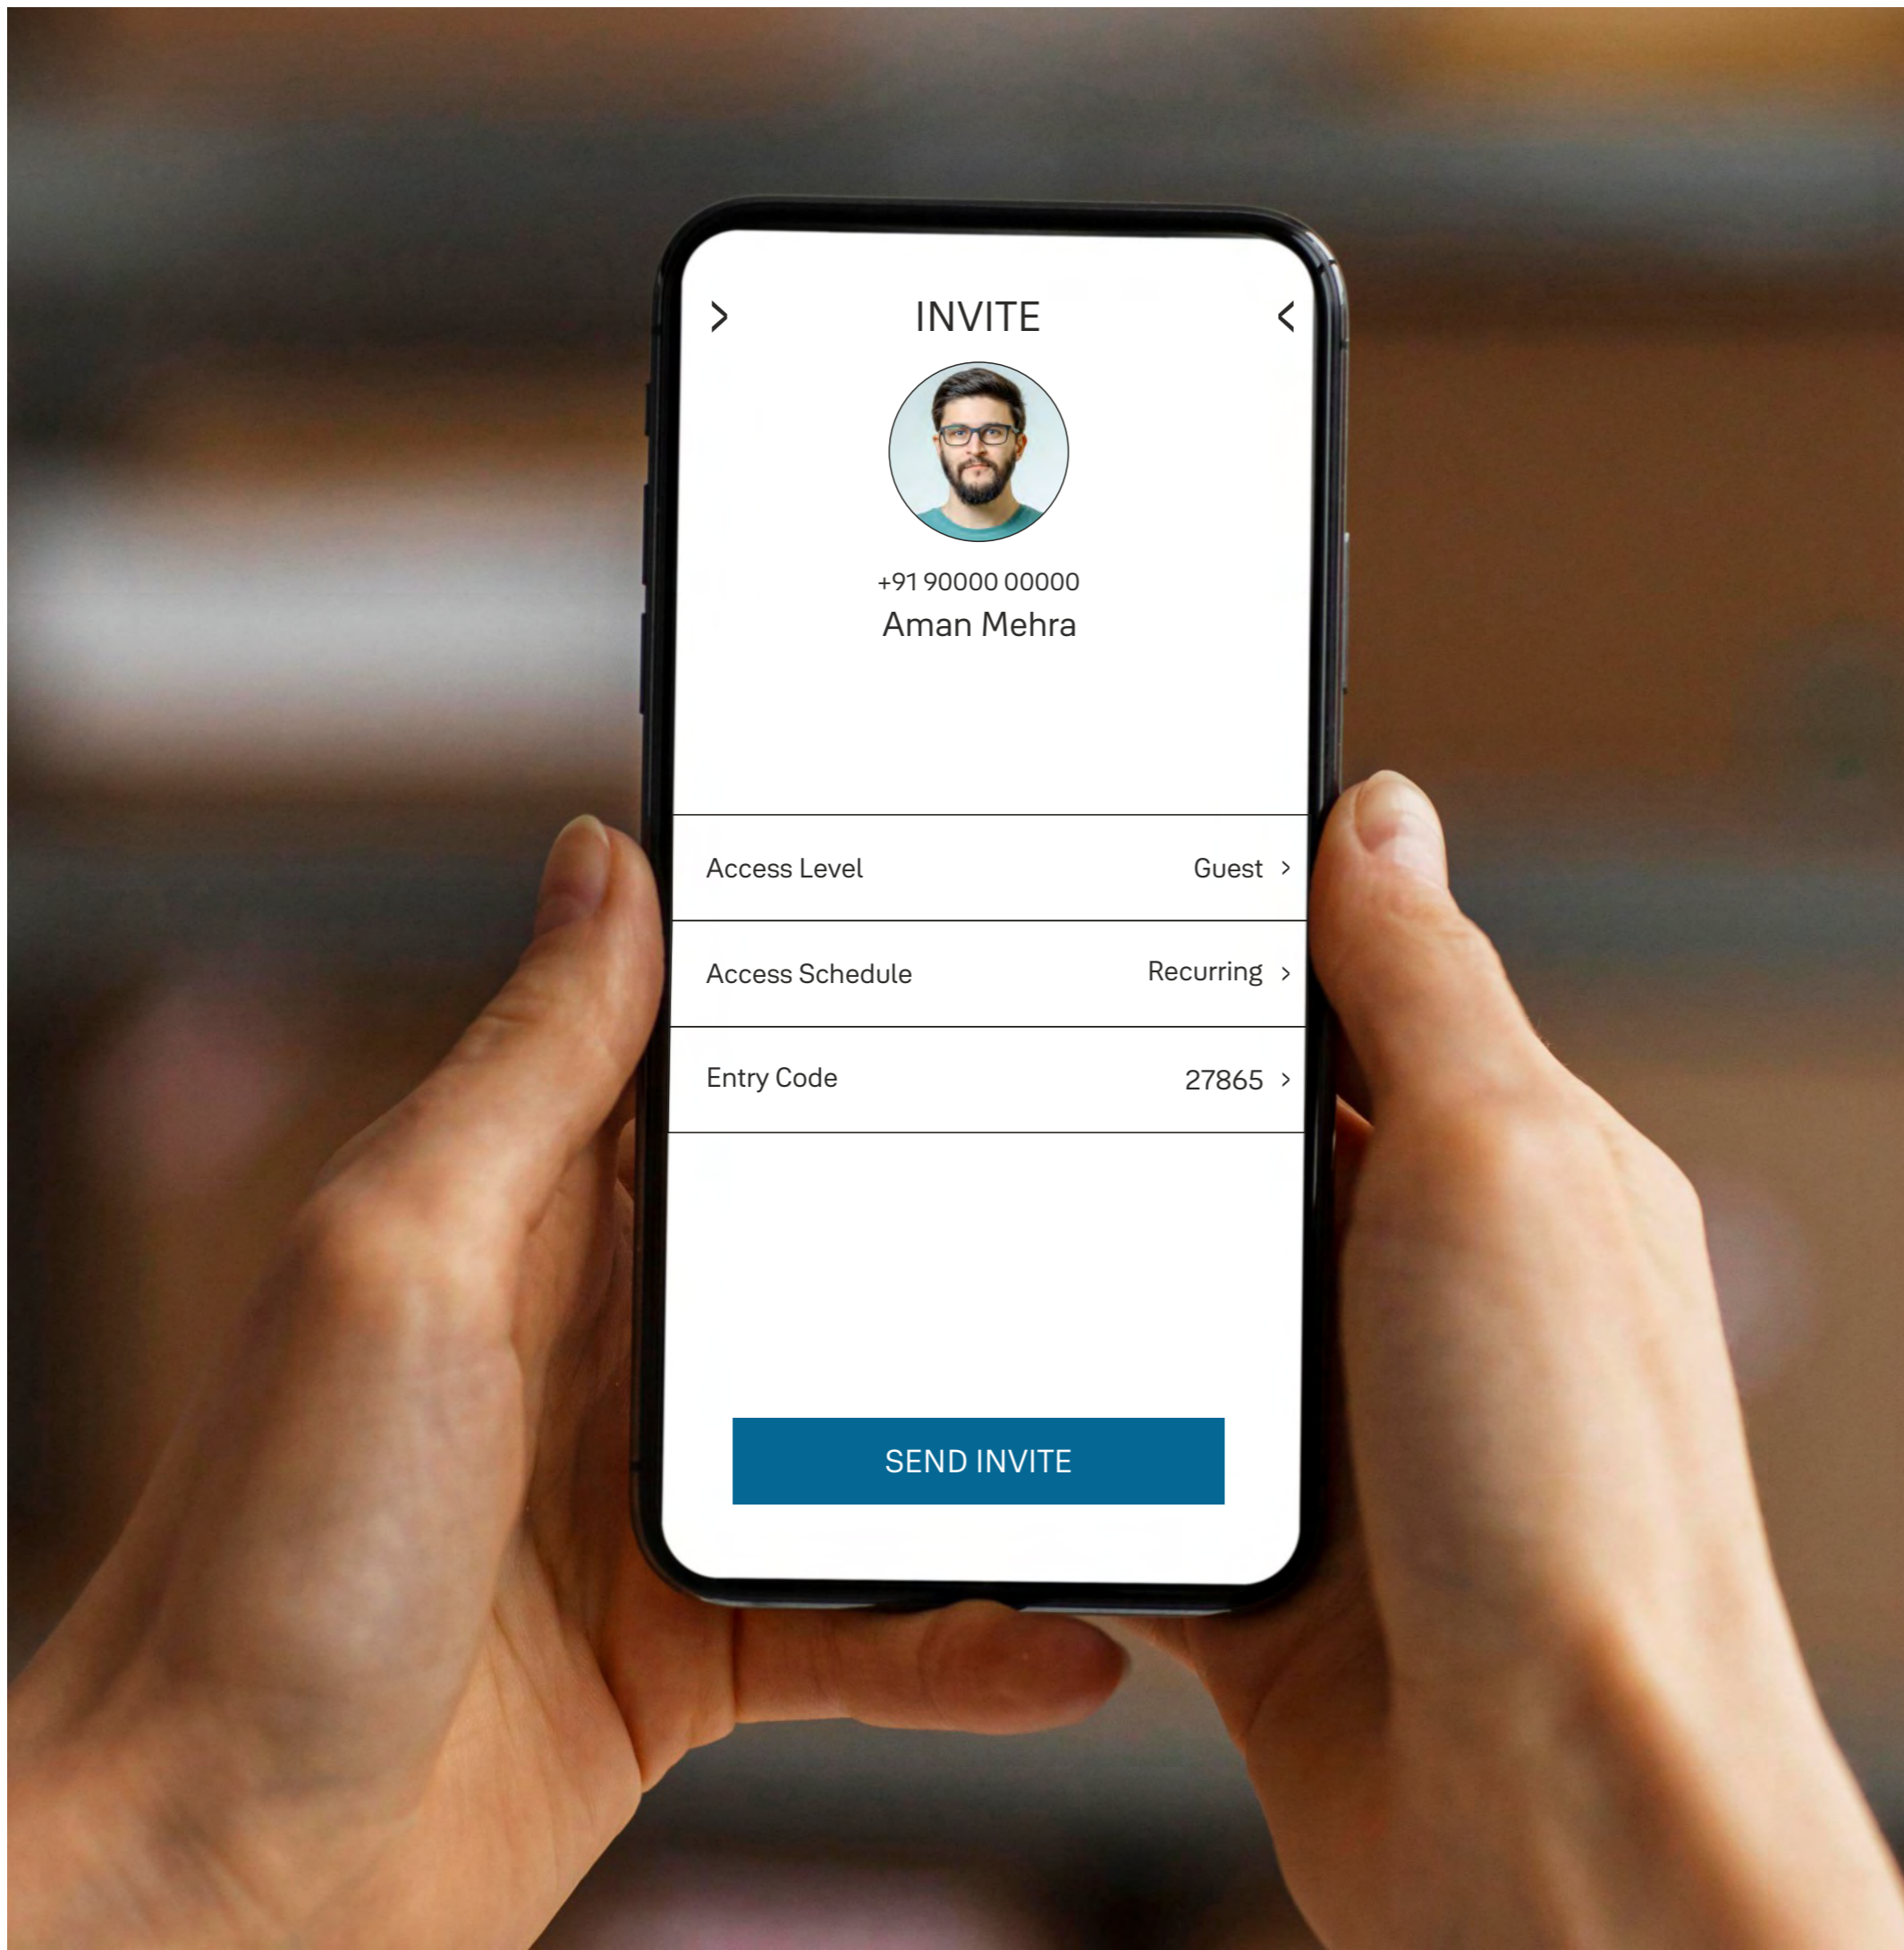

Installing is a breeze

The Yale Smart Lock installation is easy without any hassle. Now, your front door look smart and elegant.

Auto-lock and unlock as you come and go

For peace of mind, the auto-lock feature can automatically lock your door when you leave for the day, either immediately after closing or after a set amount of time via the Yale Home app. When you return home and walk up to your door, Auto-unlock will then unlock it again thanks to geo-fencing, so you don't need to fumble around with keys.

Grant entry from wherever you are with the Yale Home app

Remote access means you can let in family, friends and trusted visitors like the cleaner or the delivery driver – from anywhere – when Yale Smart Lock is paired with Yale Connect Wi-Fi Bridge. If someone forgets to lock when they leave, you can take care of it with the tap of a finger.

Safe and secure

Your security is our business. Yale Home account is protected by 2-factor authentication meaning that on top of your password, you will be required to verify your identity with either an email or phone number.

Our Yale Smart Lock uses Bluetooth Low Energy (BLE) technology encryption. On top of the security offered by Bluetooth, we use AES 128 and TLS encryption, commonly referred to as bank level security. If you lose your phone, you can disable your Yale Home app and all virtual keys at any time.

Everyday life made easier

Together with our trusted partners, Yale Smart Locks have the potential to open up a range of unique possibilities including in-home delivery, short term rental, and services like cleaning or babysitting – all of which will simplify our already time pressured lives.
